Counseling at The Green House Self-Pay Rates

We determine rates based on experience, training, etc. We remain committed to practice excellence and ongoing growth and learning for all of our counselors, continually elevating the services that we provide.

As a reminder, we offer a [sliding fee scale](#) based on annual household income. If the cost of continued counseling is a burden to you, please speak with your counselor about the sliding fee scale or other appropriate adjustments. We accept Health Savings Account and Flexible Spending Account payments.

If you have commercial insurance, you can use Thrizer to verify your out-of-network benefits and submit superbills. They manage the reimbursement process for you to save you the insurance headache. Once you meet your deductible, you will receive reimbursements in a few weeks via direct deposit. You can create an account at www.thrizer.com. Alternately, you are welcome to submit to your carrier directly.

Brooke Randolph (couples) \$225 and (individuals) \$190
Abby Hasberry \$165
Tim Mallory \$160
Danielle Zink \$150
Gus Ozmun \$150
Erin Myers \$140
Irene Gonzalez \$125
Kristie Sinsabaugh \$110
Jerren Kull \$100
Clinical Interns \$60

If you are currently seeing an intern, your practitioner's fee is likely to increase to \$90-\$100 per hour after graduation, depending on their individual licensing process. We strive to ensure there

are always clinical interns available to make therapy more affordable. We are happy to assist you in transferring to another clinical intern if requested.

Every January you will be asked to sign a new Good Faith Estimate which will contain updated rates. Signing this document each year is a federal mandate from the No Surprises Act. We strive to make all paperwork as simple and easy as possible for you while adhering to all state and federal laws and professional ethical standards.

As always, please let your counselor know if you have any questions, and we will be happy to address those with you.

Respectfully,
Brooke Randolph, LMHC, LIMHP, LPC, LPCC-S
